Love One Another

Mission Statement

Jesus said "Love one another as I have loved you" and following Jesus' example of love and care, we aim to fully develop ourselves and others within our Catholic School and community. To this end we try to live according to the following aims:

a) To develop an ethos of care in which each child feels cared for and is able to care for others.

b) That the children experience on a daily basis all Gospel values, especially love and forgiveness and that these values should become a reality within their school life, in such a way that will inspire them to communicate these values to others.

c) To foster and deepen the Catholic faith in such a way that the life, works and teachings of Jesus become the prime example to follow.

d) To support the parishes of St John the Baptist and St Philip the Apostle in the development of a community of faith, prayer and Sacramental life.

e) To deliver all areas of the curriculum in such a way that realises all children are created by God and that we all have to carry on the work of creation by helping to bring all people together in peace regardless of faith, race or culture.

f) To prepare the children for a full life by helping each individual child to maximise their skills, knowledge, social skills, emotional development and aesthetic abilities.

g) To encourage progression towards independence so that each child feels confident and has a positive outlook of themselves, and sees life as a gift from God given to enrich the lives of other people.

h) To enable each child to realise that they are unique and special and that aspects of this in each one of us can enrich the world in which we live.

i) To enable each child to realise that all people are loved and cared for by God regardless of ethnic origin, faith, culture, and background and that our differences are what can make the world so beautiful.
