THE FIRST NATIONAL LOCKDOWN, ON YEAR ON

Today marks the one year anniversary since our first lockdown on 23rd March 2020. No one could have predicted how this pandemic could have affected our lives and today we are still measuring the cost and impact of the pandemic.

Today we held a minutes silence followed by prayers from each class.

A prayer for family….A prayer for friends….A prayer for brighter days ahead….A prayer of thanks for what we have learned ….A prayer for someone who we've lost….A prayer of thanks for the heroes of the pandemic….A prayer of thanksgiving for something we are proud of

The Bishops of England have called us to pray on this special day of reflection. People are also being encouraged to stand on their doorsteps at 8pm with phones, candles and torches to signify a "beacon of hope and remembrance" and pray for healing for our world.
